ATLANTA--(BUSINESS WIRE)--Apr. 27, 2017-- Carter's, Inc. (NYSE:CRI), the largest branded marketer in the United States and Canada of apparel exclusively for babies and young children, today reported its first quarter fiscal 2017 results.

"We achieved our sales and earnings objectives in the first quarter," said Michael D. Casey, Chairman and Chief Executive Officer. "Stronger than planned demand in our wholesale and eCommerce businesses helped to offset the effects of delayed tax refunds to families with young children and a later Easter holiday. We have seen a meaningful improvement in sales trends in April, driven by Easter holiday shopping, and expect good growth in sales and earnings in the balance of the year."

Consolidated Results (First Quarter of Fiscal 2017 compared to First Quarter of Fiscal 2016)

Net sales increased \$8.7 million, or 1.2%, to \$732.8 million, reflecting growth in the Company's domestic retail and wholesale sales, which was partially offset by a decline in International sales. *Skip Hop*, a global lifestyle brand for families with young children acquired by the Company in February 2017, contributed \$10.4 million to consolidated net sales in the first quarter of fiscal 2017. Changes in foreign currency exchange rates in the first quarter of fiscal 2017 compared to the first quarter of fiscal 2016 favorably affected consolidated net sales in the first quarter of fiscal 2017 by \$1.4 million, or 0.2%. On a constant currency basis (a non-GAAP measure), consolidated net sales increased 1.0% in the first quarter of fiscal 2017.

Operating income in the first quarter of fiscal 2017 decreased \$14.4 million, or 15.5%, to \$78.6 million, compared to \$93.0 million in the first quarter of fiscal 2016. Operating margin decreased 210 basis points to 10.7%, compared to 12.8% in the first quarter of fiscal 2016. Adjusted operating income (a non-GAAP measure) decreased \$13.9 million, or 14.8%, to \$80.1 million, compared to \$94.0 million in the first quarter of fiscal 2016. Adjusted operating margin (a non-GAAP measure) decreased 210 basis points to 10.9%, compared to 13.0% in the first quarter of fiscal 2016, which reflected increased investments in retail operations, marketing, and technology, partially offset by improved gross profit margin.

Net income in the first quarter of fiscal 2017 decreased \$7.3 million, or 13.6%, to \$46.7 million, or \$0.95 per diluted share, compared to \$54.0 million, or \$1.04 per diluted share, in the first quarter of fiscal 2016. Adjusted net income (a non-GAAP measure) decreased \$7.0 million, or 12.8%, to \$47.6 million, compared to \$54.6 million in the first quarter of fiscal 2016. Adjusted earnings per diluted share (a non-GAAP measure) in the first quarter of fiscal 2017 decreased 7.8% to \$0.97, compared to \$1.05 in the first quarter of fiscal 2016.

Cash flow from operations in the first quarter of fiscal 2017 was \$84.2 million compared to \$128.3 million in the first quarter of fiscal 2016. The decrease reflected unfavorable changes in net working capital and lower net income.

See the "Reconciliation of GAAP to Adjusted Results" section of this release for additional disclosures and reconciliations regarding non-GAAP measures.

Business Segment Results (First Quarter of Fiscal 2017 compared to First Quarter of Fiscal 2016)

At the beginning of fiscal 2017, we combined our Carter's Retail and OshKosh Retail into a single U.S. Retail operating segment, and our Carter's Wholesale and OshKosh Wholesale into a single U.S. Wholesale operating segment, to reflect the sales-channel approach executive management now uses to evaluate business performance and manage operations in the U.S. Our International segment was not affected by these changes. Our reportable segments are now U.S. Retail, U.S. Wholesale, and International. Prior periods have been conformed to reflect our current segment structure.

U.S. Retail Segment

U.S. Retail segment sales increased \$9.7 million, or 2.7%, to \$363.8 million. U.S. Retail comparable sales decreased 3.5%, comprised of a stores comparable sales decline of 10.4%, partially offset by eCommerce comparable sales growth of 19.9%. Skip Hop contributed \$0.4 million to segment net sales in the first quarter of fiscal 2017.

In the first quarter of fiscal 2017, the Company opened 15 stores and closed five stores in the United States. As of the end of the first quarter of fiscal 2017, the Company operated 802 retail stores in the United States, comprised of 622 stand-alone and 180 dual-branded locations.

U.S. Wholesale Segment

U.S. wholesale segment net sales increased \$0.5 million, or 0.2%, to \$292.6 million, reflecting the benefit of the Skip Hop acquisition offset by a decrease in demand for *Carter's* and *OshKosh* products. Skip Hop contributed \$6.8 million to segment net sales in the first quarter of fiscal 2017.

International Segment

International segment net sales decreased \$1.5 million, or 1.9%, to \$76.4 million, reflecting decreased wholesale demand, partially offset by growth in retail sales in Canada, increased eCommerce sales in China, and the benefit of the Skip Hop acquisition. Skip Hop contributed \$3.3 million to segment net sales in the first quarter of fiscal 2017.

Changes in foreign currency exchange rates in the first quarter of fiscal 2017 compared to the first quarter of fiscal 2016 favorably affected international segment net sales in the first quarter of fiscal 2017 by \$1.4 million, or 1.8%. On a constant currency basis (a non-GAAP measure), international segment net sales declined 3.7%.

For the first quarter of fiscal 2017, Canada retail comparable sales decreased 8.0%, comprised of a stores comparable sales decline of 11.7%, partially offset by eCommerce comparable sales growth of 40.1%. In the first quarter of fiscal 2017, the Company closed one store in Canada. As of the end of the first quarter of fiscal 2017, the Company operated 163 retail stores in Canada.

Return of Capital

In the first quarter of fiscal 2017, the Company returned a total of \$64.6 million to shareholders through share repurchases and cash dividends, as described below.

During the first quarter of fiscal 2017, the Company repurchased and retired 543,944 shares of its common stock for \$46.6 million at an average price of \$85.72 per share. Fiscal year-to-date through April 26, 2017, the Company repurchased and retired a total of 694,744 shares for \$60.1 million at an average price of \$86.57 per share. All shares were repurchased in open market transactions pursuant to applicable regulations for such transactions. As of April 26, 2017, the total remaining capacity under the Company's previously announced repurchase authorizations was approximately \$214 million.

During the first quarter of fiscal 2017, the Company paid a cash dividend of \$0.37 per share totaling \$18.0 million. Future declarations of quarterly dividends and the establishment of related record and payment dates will be at the discretion of the Company's Board of Directors based on a number of factors, including the Company's future financial performance and other considerations.

2017 Business Outlook

For fiscal 2017, the Company projects net sales to increase approximately 4% to 6% over fiscal 2016 and adjusted earnings per diluted share to increase approximately 8% to 10% compared to adjusted earnings per diluted share of \$5.14 in fiscal 2016. This forecast for fiscal 2017 adjusted earnings per diluted share excludes anticipated expenses of approximately \$3.0 million related to the Skip Hop acquisition, and approximately \$0.5 million related to the Company's direct sourcing initiative, which includes severance and relocation costs.

For the second quarter of fiscal 2017, the Company projects net sales to increase approximately 6% to 8% compared to the second quarter of fiscal 2016 and adjusted earnings per diluted share to be approximately \$0.65 to \$0.70 compared to adjusted earnings per diluted share of \$0.72 in the second quarter of fiscal 2016. This projection contemplates net sales growth in all segments and increased spending to support the Company's long-term growth strategies compared to the prior-year period. The forecast for second quarter fiscal 2017 adjusted earnings per diluted share excludes anticipated expenses of approximately \$1.0 million related to the Skip Hop acquisition, and approximately \$0.2 million related to the Company's direct sourcing initiative.

The Company believes non-GAAP measurements, including adjusted earnings per diluted share, provide investors with a meaningful view of the Company's core operating results, and are the same measurements used by the Company's executive management to assess the Company's performance.

EBITDA and Adjusted EBITDA are supplemental financial measures that are not defined or prepared in accordance with GAAP. We define EBITDA as net income before interest, income taxes, and depreciation and amortization. Adjusted EBITDA is EBITDA adjusted for the item described in footnotes (b) and (c) to the table above.

We present EBITDA and Adjusted EBITDA because we consider them important supplemental measures of our performance and believe they are frequently used by securities analysts, investors, and other interested parties in the evaluation of companies in our industry. These measures also afford investors a view of what management considers to be the Company's core performance.

The use of EBITDA and Adjusted EBITDA instead of net income or cash flows from operations has limitations as an analytical tool, and you should not consider them in isolation, or as a substitute for analysis of our results as reported under GAAP. EBITDA and Adjusted EBITDA do not represent net income or cash flow from operations as those terms are defined by GAAP and do not necessarily indicate whether cash flows will be sufficient to fund cash needs. While EBITDA, Adjusted EBITDA and similar measures are frequently used as measures of operations and the ability to meet debt service requirements, these terms are not necessarily comparable to other similarly titled captions of other companies due to the potential inconsistencies in the method of calculation. EBITDA and Adjusted EBITDA do not reflect the impact of earnings or charges resulting from matters that we consider not to be indicative of our ongoing operations. Because of these limitations, EBITDA and Adjusted EBITDA should not be considered as discretionary cash available to us for working capital, debt service and other purposes.

RECONCILIATION OF U.S. GAAP AND NON-GAAP INFORMATION

The tables below reflect the calculation of constant currency for total net sales of the International segment and consolidated net sales for the fiscal quarter ended April 1, 2017:

	<u>Fiscal Quarter Ended</u>					
	<u>Reported Net Sales April 1, 2017</u>	<u>Impact of Foreign Currency Translation</u>	<u>Constant-Currency Net Sales April 1,</u>	<u>Reported Net Sales April 2, 2016</u>	<u>Reported Net Sales % Change</u>	<u>Constant-Currency Net Sales % Change</u>

2017

Consolidated net sales	\$ 732.8	\$ 1.4	\$ 731.4	\$ 724.1	1.2%	1.0%
International segment net sales	\$ 76.4	\$ 1.4	\$ 75.1	\$ 77.9	(1.9)%	(3.7)%

The Company evaluates its net sales on both an “as reported” and a “constant currency” basis. The constant currency presentation, which is a non-GAAP measure, excludes the impact of fluctuations in foreign currency exchange rates that occurred between the comparative periods. Constant currency net sales results are calculated by translating current period net sales in local currency to the U.S. dollar amount by using the currency conversion rate for the prior comparative period. The Company consistently applies this approach to net sales for all countries where the functional currency is not the U.S. dollar. The Company believes that the presentation of net sales on a constant currency basis provides useful supplemental information regarding changes in our net sales that were not due to fluctuations in currency exchange rates and such information is consistent with how the Company assesses changes in its net sales between comparative periods.

Note: Results may not be additive due to rounding.
