PART I

ITEM 1. BUSINESS

GENERAL

For purposes of this Report, "Holdings" refers to Carter Holdings, Inc. and "Carter's" refers to The William Carter Company and its subsidiaries. On October 30, 1996, Holdings acquired 100% of the outstanding capital stock of Carter's. Holdings has substantially no assets or investments other than those related to its investment in Carter's. The consolidated entity of Holdings and Carter's is collectively hereinafter referred to as the "Company".

Carter's is the largest branded marketer and manufacturer of baby and toddler apparel and a leading marketer and manufacturer of young children's apparel. Over Carter's 136 years of operation, CARTER'S has become one of the most highly recognized brand names in the children's apparel industry. Carter's sells its products under the brand names of CARTER'S and CARTER'S CLASSICS to 484 department, specialty and discount store accounts, with an estimated 7,997 store fronts, and through its 147 retail outlet stores. In the fourth quarter of 2000, Carter's entered the discount channel by launching its TYKES and BABY TYKES brands within the Target stores division of Target Corporation ("Target").

Carter's generates a majority of its sales in the baby and toddler apparel market which was approximately an \$8.0 billion market in 2000. Management believes that the baby and toddler market is insulated from changes in fashion trends and less sensitive to general economic conditions and offers strong prospects for continued growth. The growth in this market is being driven by a number of factors, including: (i) a strong and growing birth market; (ii) more women returning to the workplace after having children, resulting in more disposable income and increased day care apparel needs; (iii) the increasing number of grandparents, a demographic segment with high per capita discretionary income and an important consumer base for children's apparel; and (iv) an increase in the percentage of births to first time mothers.

On October 30, 1996, Holdings, a company organized on behalf of affiliates of INVESTCORP S.A. ("Investcorp"), management and certain other investors, acquired 100% of the outstanding preferred and common stock of Carter's (the "Acquisition"). Financing for the Acquisition was provided by (i) \$56.1 million of borrowings under a \$100.0 million senior credit facility among Carter's, certain lenders and The Chase Manhattan Bank, as administrative agent (the "Senior Credit Facility"); (ii) \$90.0 million of borrowings under a subordinated loan facility among Carter's, certain lenders and Bankers Trust Company, as administrative agent (the "Subordinated Loan Facility"); (iii) \$50.9 million of equity investments in Holdings by affiliates of Investcorp and certain other investors, which excludes the exchange of management stock; and (iv) the issuance by Holdings of \$20.0 million of 12% Senior Subordinated Notes to affiliates of Investcorp and certain other investors.

Carter's and Holdings are Massachusetts corporations. The principal executive office of the Company is located at 1590 Adamson Parkway, Suite 400, Morrow, Georgia 30260 and its telephone number is (770) 961-8722.

PRODUCTS AND MARKETS

The Company designs, manufactures, sources and markets a broad array of baby, toddler and young children's apparel. The Company also licenses its brand names to other companies to create a complete collection of coordinating lifestyle products including bedding, strollers, underwear, shoes, room decor, toys and more.

The Company's brand positioning is based on Celebrating Imagination which is expressed through creative artwork in prints, colors and embroideries on Carter's products. This positioning supports the Company's strategy of creating quality core products that are differentiated through imaginative and creative artistic application. Celebrating Imagination continues to provide growth opportunities for the brand and is widely embraced by both retailers and consumers.

BABY AND TODDLER

In 2000, total industry sales of baby and toddler apparel (newborn through size 5T) were approximately \$8.0 billion (industry sales, reported by The NPD Group, Inc., are stated in retail sales dollars and therefore are not comparable to the Company's sales which are reported in wholesale shipment dollars and retail outlet store sales). Department and chain stores, which represent Carter's primary distribution, account for approximately half this market. Carter's is currently the leading supplier of branded baby and toddler apparel in the United States with a 12% market share in its primary distribution channels, more than twice that of its nearest branded competitor. In 2000, total industry discount channel sales of baby and toddler apparel were approximately \$3.1 billion, approximately 39% of the total market.

LAYETTE. Layette includes a complete range of products primarily made of cotton for newborns, including bodysuits, undershirts, towels, washcloths, receiving blankets, layette gowns, bibs, caps and booties. In fiscal 2000, Carter's generated \$179.0 million in sales of these products. Carter's is the leading supplier of layette products within its distribution channels. Management attributes Carter's leading market position to its distinctive print designs, unique embroideries and the reputation

for quality Carter's has developed over its 136 year history. In 2000, Carter's continued to introduce new layette programs targeted toward three consumer groups: gift-givers, experienced mothers and first-time mothers. Just One Year ("JOY"), Limited Editions and Carter's Classics are complete nursery programs designed for the first-time mother and gift-givers. Baby Basics, the core component of Carter's layette business, provides the experienced mother with the essentials in value-focused multi-packs. Carter's primary competitors in the layette market are private label manufacturers.

SLEEPWEAR. Baby and toddler sleepwear includes pajamas, long underwear and one-piece footed sleepers. In fiscal 2000, Carter's generated \$103.5 million in sales of these products. Carter's is the leading supplier of baby sleepwear products within its distribution channels. As in layette, management attempts to differentiate its sleepwear products from its competition by offering creative artwork in consumer-tested prints and embroideries with an emotional appeal. In addition, management believes Carter's baby and toddler sleepwear product line features more functional, higher quality products than those of its competitors. The 2000 introduction of flame retardant cotton sleepwear strengthened Carter's leading position through product innovation. Carter's primary competitors in the baby and toddler sleepwear market are private label manufacturers and licensed character products.

PLAYWEAR. Baby and toddler playwear includes knit and woven cotton apparel for everyday use. In fiscal 2000, Carter's generated \$86.7 million in sales of these products. Carter's continues to focus on strengthening its playwear product offerings by introducing original print designs and innovative artistic applications to drive sales growth and increase market share. Carter's Celebrating Imagination brand theme has continued to create a strong competitive differentiation for the brand in this marketplace. Management believes that this focus, in addition to Carter's high brand name awareness, strong wholesale customer relationships and expanded global sourcing capabilities will propel Carter's sales and market share growth in this category. The baby and toddler playwear market is highly fragmented, with no one branded competitor having more than a 7% share of the market.

OTHER PRODUCTS. Other baby and toddler products include bedding, outerwear, shoes, socks, diaper bags, gift sets, toys, room decor and hair accessories, including products for which the Company licenses the CARTER'S, CARTER'S CLASSICS, TYKES and BABY TYKES name. In fiscal 2000, Carter's generated \$46.5 million in sales of these products.

TYKES AND BABY TYKES

Carter's launched the TYKES and BABY TYKES brands for baby and toddler at Target in the fourth quarter of 2000. This comprehensive lifestyle brand includes layette, sleepwear, baby and playwear along with a range of licensed products. Such licensed products include hosiery, bedding, toys and room decor products. The January 2001 introduction was launched with a nationwide floor set that management believes will establish the TYKES and BABY TYKES brands through a substantial presentation at Target stores along with a comprehensive in store sign and fixture program. This program was shipped into Target stores nationwide and represents Carter's initial entry into the discount channel of distribution.

YOUNG CHILDREN'S

In 2000, total industry sales of young children's apparel (girls' sizes 4-6x and boys' sizes 4-7) were approximately \$5.7 billion. Department and chain stores, which represent Carter's primary distribution, account for approximately half of this market. Carter's is the largest branded supplier of young children's sleepwear products and also has a growing share of the branded young children's playwear market.

SLEEPWEAR. Young children's sleepwear product offerings include basic two-piece pajamas, long underwear and polyester blanket-fleece one-piece sleepers. In fiscal 2000, Carter's generated \$28.6 million in sales of these products. As with baby and toddler sleepwear, Carter's attempts to differentiate its young children's sleepwear products from those of its competitors by offering creative artwork through consumer-tested prints and embroideries with an emotional appeal. Carter's primary competitors in the young children's sleepwear market are private label manufacturers and licensed character products.

PLAYWEAR. Young children's playwear product offerings include knit and woven cotton apparel for everyday use. In fiscal 2000, Carter's generated \$23.1 million in sales of these products. Carter's strategy is to leverage its high brand awareness and leading market shares in layette and sleepwear in combination with its creative designs to increase its sales of young children's playwear. The young children's playwear market is highly fragmented among private label, licensed characters and branded competitors.

LICENSING

The Company licenses the CARTER'S, CARTER'S CLASSICS, TYKES and BABY TYKES names to other companies for use on baby, toddler and young children's products including bedding, outerwear, shoes, socks, room decor, toys, stationery, strollers and hair accessories and related products. In 1998, the Company entered into a license agreement for the rights to John Lennon's Real Love artwork collection for use on children's apparel, accessories and related products. In 1999, Carter's entered into an artwork agreement with Emu Namae, a Japanese artist, to use his art on children's apparel, accessories and licensed products. These artwork agreements are part of Carter's Limited Editions program which utilizes partnerships with outside artists and concepts to further differentiate the Carter's brand. In fiscal 2000, Carter's earned \$5.8 million in royalty income from the sale of licensed products.

PRODUCT DESIGN AND DEVELOPMENT

The Company's product design and development organization is comprised of teams that focus on each of the Company's primary product markets. Each team has its own business and design staff to develop new business opportunities specifically for its respective market. A separate art team that creates exclusive prints, embroideries and other artistic applications for each product team further strengthens the creative process. Management believes that this organizational structure provides the Company greater flexibility and allows it to introduce products more quickly and with a greater success rate.

The Company's design staff continuously strives toward product innovation and distinctive artistic applications. Extensive consumer preference testing drives the product offerings and defines the look for the brand, while a few showpieces are developed each season to add variety and interest. Generally, graphics, prints, colors and embroideries are used to provide originality and depth with a sophisticated graphic computer network which enhances artistic talent.

Due to the importance of creative art, Carter's devotes particular effort to consumer preference testing for colors, prints, artwork and silhouettes. Each year, over 1,000 concepts are consumer-tested in focus groups in Carter's outlet stores as well as in geographically-diverse malls and baby fairs.

After consumer preference testing of a fabric or product occurs and internal review committees approve selections, retailers are often shown a color drawing in "board form" to provide market feedback. Finally, product development groups from the Company's merchandising team coordinate plans with the global sourcing managers to ensure cost-effective execution and quality of the entire line.

DISTRIBUTION AND SALES

The Company sells its products to wholesale accounts and through Carter's retail outlet stores. In fiscal 2000, sales through the wholesale channel, including discount channel revenues, accounted for 54% of total sales, while the retail outlet channel accounted for 46% of total sales. No one wholesale customer accounts for more than 10% of consolidated net sales.

WHOLESALE OPERATIONS

The Company sells its products in the United States through a network of approximately 30 sales professionals. Sales professionals work with each department or specialty store account in his/her jurisdiction to establish annual plans for "basics" (primarily layette and certain baby apparel) within the CARTER'S and CARTER'S CLASSICS lines. Once an annual plan has been established with an account, Carter's places the account on its semi-monthly automatic reorder plan for "basics". Automatic reorder allows the Company to plan its sourcing requirements and benefits both the Company and its wholesale customers by maximizing customers' in-stock positions, thereby improving sales and profitability. The automatic reorder process has also been established with Target, which began receiving TYKES and BABY TYKES products in the fourth quarter of 2000. Carter's sleepwear and playwear products are planned and ordered seasonally as new products are introduced.

RETAIL OPERATIONS

The Company currently operates 147 retail outlet stores in 39 states featuring Carter's quality merchandise, complemented by select brand accessories, apparel and licensed products. The stores, which average 5,100 square feet per location, offer a broad assortment of baby, toddler and young children's apparel including layette, sleepwear, underwear, playwear, swimwear, outerwear and related accessories.

Business segment financial information for the wholesale and retail segments is contained in ITEM 8 "Financial Statements and Supplementary Data", Note 16 -- "Segment Information" to the Consolidated Financial Statements, and is incorporated herein by reference.

MARKETING

Management's strategy has been to promote Carter's brand image as the leader in baby apparel and to consistently provide quality products at a value to consumers. To this end, management employs a comprehensive four-step marketing strategy which incorporates identifying core products through extensive consumer preference testing; brand and product presentation at the consumer point-of-purchase; mass marketing the brand name; and providing consistent, premium service, including delivering and replenishing products on time to fulfill customer and consumer needs.

Management believes that the Company has strengthened its brand image with the consumer through its Celebrating Imagination brand theme that attempts to capture the essence of childhood and a child's imagination as expressed through creative artwork in prints and embroideries. The Company also attempts to differentiate its products through innovative product designs, lifestyle positioning, advertising with wholesale customers, store-in-store shops and fixturing. Management believes that frequent meetings between Carter's executives and senior representatives from its key wholesale customers help maintain account relationships and further strengthen the brand's image in the marketplace.

PRODUCT SOURCING

The Company continues to expand its global supply chain capabilities. Consistent with this strategy, the Company closed its textile operations in Barnesville, Georgia in December 1999 and fabric previously produced by the Company is currently purchased from third-party manufacturers. The Company prints, cuts, sews, finishes and embroiders a majority of the products it sells. In the United States, the Company currently operates one print facility, one cutting facility, one sewing facility, one embroidery facility and three distribution centers. The Company operates two sewing facilities in Costa Rica, one sewing facility in the Dominican Republic and two sewing facilities in Mexico. The Company also sources its products through contractual arrangements throughout the world. Management believes that the Company's sourcing arrangements are sufficient to meet current and planned operating requirements.

Management believes significant additional opportunities exist to further optimize its supply chain. Such opportunities include the reduction of product costs, cycle times and inventories. The Company will attempt to realize these reductions through investments in advanced information systems, the expansion of global sourcing relationships, reductions in SKUs and product complexity and the focus on core product offerings.

DEMOGRAPHIC TRENDS

Demographic and psychographic trends support a strong and growing baby and toddler market and help insulate the Company from seasonal and fashion fluctuations. Highlights of these trends include:

- a strong birth market;
- more money being spent on babies than ever before;
- multiple births at record levels;
- 40% of all births are first births; and
- the number of grandparents as a growing and more affluent market.

In 1998 (the most current data available), 3.9 million births were reported and demographers project a progressive increase in births over the next 20 years that will ultimately surpass the original baby boom. Today's mother is more likely to be working outside the home, thus is more affluent and spending more on her children's apparel. New families are being formed and higher levels of spending are required for the child's first wardrobe.

COMPETITION

The baby and toddler and young children's apparel markets are highly competitive. Competition is generally based upon product quality, brand name recognition, price, selection, service and convenience. Both branded and private label manufacturers compete in the baby and toddler and young children's markets. Carter's primary branded competitors include Health-Tex and Oshkosh B'Gosh, together with Disney licensed products, in playwear and numerous smaller branded companies, as well as Disney licensed products, in sleepwear. Although management believes that Carter's does not compete

directly with most private label manufacturers in sleepwear and playwear, certain retailers, including several which are customers of the Company, have significant private label product offerings. The Company does not believe that it has any significant branded competitors in its layette market in which most of the alternative products are offered by private label manufacturers. Because of the highly fragmented nature of the industry, the Company also competes with several small, local manufacturers and retailers. Certain competitors of the Company have greater financial resources, larger customer bases and are less financially leveraged.

ENVIRONMENTAL MATTERS

The Company is subject to various federal, state and local laws that govern activities or operations that may have adverse environmental effects. Noncompliance with these laws and regulations can result in significant liabilities, penalties and costs. From time to time, operations of the Company have resulted or may result in noncompliance with or liability pursuant to environmental laws. Carter's is in the final stages of resolving an environmental matter associated with waste deposited at or near a landfill in Lamar County, Georgia in the 1970's. In 1999, the Company established a reserve to provide for its share of the total estimated costs required to resolve this matter. These costs are estimated to be less than \$1.0 million. However, there can be no assurance that this estimate will prove accurate. Generally, compliance with environmental laws has not had a material impact on the Company's operations, but there can be no assurance that future compliance with such laws will not have a material adverse effect on the Company or its operations.

PATENTS, TRADEMARKS, COPYRIGHTS AND LICENSES

The Company owns many trademarks and tradenames, including Carter's(R), Carter's Growbody(R), Carter-Set(R), Jamakins(R), Today's Classics(R), Tykes(R) and Baby Tykes(TM) as well as patents and copyrights, most of which are registered in the United States and in 60 foreign countries. The Company licenses the CARTER'S, CARTER'S CLASSICS, TYKES and BABY TYKES names and many of its trademarks, tradenames and patents to third-party manufacturers to produce and distribute children's apparel and related products such as diaper bags, lamps, socks, strollers, hair accessories, outerwear, underwear, bedding, plush toys and shoes. The Company licenses, under an agreement which expires at the end of 2002, the rights to John Lennon's Real Love artwork collection for use on children's apparel, accessories and related products. The Company's artwork agreement with Emu Namee also expires in 2002. The Company has the right to exercise renewal options.

EMPLOYEES

As of December 30, 2000, the Company had approximately 6,948 employees, 2,761 of which were employed on a full-time basis in the Company's domestic operations, 997 of which were employed on a part-time basis in the Company's domestic operations and 3,190 of which were employed on a full-time basis in the Company's offshore operations. None of the Company's employees are unionized. The Company has had no labor-related work stoppages and believes that its labor relations are good.

ITEM 2. PROPERTIES

The Company operates 147 leased retail outlet stores located primarily in outlet centers across the United States, having an average size of 5,100 square feet. Typically, the leases have an average term of approximately five years with additional five-year renewal options. Domestically, the Company owns three distribution facilities, two in Georgia and one in Pennsylvania. The Company also owns three manufacturing facilities as well as an office building in Georgia, has a ground lease on one additional manufacturing facility in Texas and leases office space in four buildings - two in Georgia, one in Connecticut and one in New York. In February 2001, the Company entered into a ten-year lease agreement for a new corporate office in Atlanta, Georgia. Internationally, the Company leases two sewing facilities in Costa Rica, one in the Dominican Republic and two in Mexico.

ITEM 3. LEGAL PROCEEDINGS

From time to time, the Company has been involved in various legal proceedings. Management believes that all of such litigation is routine in nature and incidental to the conduct of its business, and that none of such litigation, if resolved adversely to the Company, would have a material adverse effect on the financial condition or results of operations.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

There is no public trading market for Holdings Class A, Class C, Class D or Common Stock. There were approximately 11, 22 and 11 holders of Holdings Class A, Class C and Class D Stock at March 29, 2001, respectively. No Common Stock was outstanding at March 29, 2001. Holdings has not paid dividends on any class of stock to date and does not currently intend to pay dividends on any class of stock in the future. The payment of dividends is restricted by the Senior Credit Facility and by the provisions of the Series A and Series B Senior Subordinated Notes.

During fiscal 2000, 1999 and 1998, Holdings repurchased 1,169, 8,450 and 5,358 shares, respectively, of its Class C Stock owned by former Company employees for cash payments totaling approximately \$70,000, \$507,000 and \$320,000, respectively. In addition, during each of fiscal 2000 and 1999, Holdings issued 1,000 shares of its Class C Stock to employees at a fair value of \$60,000. During fiscal 1998, Holdings sold 1,000 shares of Class C Stock to an employee of the Company for \$60,000 and issued 500 shares to another employee at a fair value of \$30,000.

ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial and other data of Carter Holdings, Inc. and its subsidiaries (the "Company") as of December 30, 2000, January 1, 2000, January 2, 1999, January 3, 1998 and December 28, 1996 and for the fiscal years ended December 30, 2000 ("fiscal 2000"), January 1, 2000 ("fiscal 1999"), January 2, 1999 ("fiscal 1998") and January 3, 1998 ("fiscal 1997") and for the period from October 30, 1996 (inception) through December 28, 1996. On October 30, 1996, Carter Holdings, Inc. acquired 100% of the outstanding capital stock of The William Carter Company ("Carter's"). For purposes of identification, Carter's and its subsidiaries are also referred to as "Predecessor" for periods prior to the Acquisition. Also set forth below is selected financial and other data of the Predecessor for the period from December 31, 1995 through October 29, 1996.

As a result of the Acquisition and certain adjustments made in connection therewith, the results of operations of the Company are not comparable to those of the Predecessor.

The selected financial data of the Company for fiscal 2000, 1999, 1998, 1997 and for the period from October 30, 1996 (inception) through December 28, 1996 were derived from the Company's audited Consolidated Financial Statements. The selected financial data of the Predecessor were derived from the Predecessor's audited Consolidated Financial Statements.

The following table should be read in conjunction with ITEM 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations" and ITEM 8 "Financial Statements and Supplementary Data".

NOTES TO SELECTED FINANCIAL DATA

(a) As a result of the Acquisition, Carter's assets and liabilities were adjusted to their estimated fair values as of October 30, 1996. In addition, the Company entered into new financing arrangements and changed its capital structure. Accordingly, the results of operations for the fiscal years ended December 30, 2000, January 1, 2000, January 2, 1999 and January 3, 1998 and the period from October 30, 1996 through December 28, 1996 are not comparable to prior periods. The fiscal years ended December 30, 2000, January 1, 2000, January 2, 1999 and January 3, 1998 and the period October 30, 1996 through December 28, 1996 reflect increased depreciation, amortization and interest expenses.

(b) The nonrecurring charge for the fiscal year ended January 1, 2000 represents the \$6.9 million writedown in the carrying value of the Company's textile facility assets, for which the operations were closed in December 1999, and a \$0.2 million loss on property, plant and equipment related to the closures of three domestic sewing facilities. The nonrecurring charge for the period December 31, 1995 through October 29, 1996 includes: (1) compensation-related charges of \$5.3 million for amounts paid to management in connection with the Acquisition; and (2) other expense charges of \$3.5 million for costs and fees Carter's incurred in connection with the Acquisition.

(c) The extraordinary item for the period October 30, 1996 (inception) through December 28, 1996 reflects the write-off of \$3.4 million and \$0.2 million of deferred debt issuance costs related to the Subordinated Loan Facility and the portion of the Senior Credit Facility, respectively, repaid with the proceeds of the 10 3/8% Notes in November 1996, net of income tax effects.

(d) Represents total current assets less total current liabilities.

(e) EBITDA represents earnings before interest and income tax expense (i.e. operating income) excluding the following charges:

- (i) the \$7.1 million nonrecurring charge in 1999 related to the closure of textile and sewing facilities, and, in fiscal 1996, the nonrecurring charge of \$8.8 million related to the Acquisition;
- (ii) depreciation and amortization expense including prepaid management fee amortization of \$1.125 million, \$1.35 million and \$1.35 million for the fiscal years ended January 1, 2000, January 2, 1999 and January 3, 1998, respectively, and \$0.23 million for the period October 30, 1996 through December 28, 1996 incurred in connection with the Acquisition; and
- (iii) costs associated with certain benefit plans that were terminated as a result of the Acquisition and not replaced, as follows: (1) Long-Term Incentive Plan expenses of \$1.0 million for the period December 31, 1995 through October 29, 1996; and (2) Management Equity Participation Plan expenses of \$0.6 million for the period December 31, 1995 through October 29, 1996.

The Company has reported EBITDA as it is relevant for covenant analysis under the \$100.0 million 10 3/8% Notes Indenture, which defines EBITDA as set forth above for the periods shown. In addition, management believes that EBITDA is generally accepted as providing useful information regarding a company's ability to service and/or incur debt. EBITDA should not be considered in isolation or as a substitute for net income, cash flows or other consolidated income or cash flow data prepared in accordance with generally accepted accounting principles or as a measure of a company's profitability or liquidity. The EBITDA amounts presented herein may not be comparable to other similarly titled measures presented by other companies.

(f) In fiscal 2000, the Company recorded the cumulative effect of a change in accounting principle in order to comply with guidance provided by the Securities and Exchange Commission's Staff Accounting Bulletin No. 101, "Revenue Recognition in Financial Statements."

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the "Selected Financial Data" and the Consolidated Financial Statements of the Company and the notes thereto. This report contains, in addition to historical information, forward-looking statements that include risks and other uncertainties. The Company's actual results may differ materially from those anticipated in these forward-looking statements. Factors that might cause such a difference include those discussed below, as well as general economic and business conditions, competition and other factors discussed elsewhere in this report. The Company undertakes no obligation to release publicly any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of anticipated or unanticipated events.

GENERAL

The Company is a leading marketer and manufacturer of baby, toddler and young children's apparel. The Company sells its products to 484 department, specialty and discount store customers (54% of fiscal 2000 sales) and through its 147 retail outlet stores (46% of fiscal 2000 sales).

Consolidated net sales have increased from \$318.2 million in 1996 to \$471.4 million in 2000. During this period, wholesale sales have increased from \$189.0 million to \$256.1 million and retail sales have increased from \$129.2 million to \$215.3 million. The increase in wholesale sales resulted primarily from the success of product introductions and the strength of the Carter's brand in the market place relative to branded and private label competitors. The increase in retail sales resulted from new store openings and comparable store sales increases (stores open more than 12 months).

RESULTS OF OPERATIONS

The following table sets forth certain components of the Company's Consolidated Statements of Operations data expressed as a percentage of net sales:

FISCAL YEAR ENDED DECEMBER 30, 2000 COMPARED WITH FISCAL YEAR ENDED JANUARY 1, 2000

NET SALES. Net sales for fiscal 2000 increased 13.7% to \$471.4 million from \$414.6 million in fiscal 1999. This increase includes a 10.7% increase in wholesale sales and a 17.4% increase in retail sales. Revenues from each of the Company's major product markets, which are baby, sleepwear and playwear, increased \$18.8 million (12.0%), \$20.4 million (18.2%) and \$8.6 million (8.7%), respectively, from 1999 to 2000.

The Company's total wholesale sales for fiscal 2000 increased to \$256.1 million from \$231.3 million in fiscal 1999. Excluding off-price and Tykes sales, wholesale sales increased \$26.3 million (12.6%) to \$235.2 million in 2000 from \$208.9 million in 1999. The increase in wholesale sales reflects the growth of baby and sleepwear product lines of \$14.7 million (14.1%) and \$17.0 million (22.7%), respectively, as compared to fiscal 1999. The continued success of these lines reflects the benefit from improvements made to the Company's products through its new product sourcing strategy and the Company's focus on product innovation through creative prints and embroideries. Included in 2000 wholesale sales are the sales of TYKES and BABY TYKES products sold to Target in the fourth quarter of 2000 in an initial launch in Target stores nationwide.

Wholesale sales in 2000 included a lower mix of off-price sales (merchandise promoted at more than 25% off regular wholesale selling prices) to the secondary market. Off-price sales as a percentage of consolidated sales in 2000 were 3.6% compared to 5.4% in 1999. The decrease in off-price sales reflects the benefit from improved product development and inventory management disciplines.

Retail sales for fiscal 2000 increased to \$215.3 million from \$183.3 million in fiscal 1999. Such increase was primarily attributed to the strong performance of the playwear product line. Product performance was also the driving force behind the Company's comparable retail store sales increase of 14.3% in 2000. In 2000, the Company opened seven stores and closed six stores. There were 147 stores in operation at December 30, 2000 compared to 146 at January 1, 2000.

GROSS PROFIT. Gross profit for fiscal 2000 increased 24.7% to \$178.0 million from \$142.8 million in fiscal 1999. Gross profit as a percentage of net sales in fiscal 2000 increased to 37.8% from 34.4% in fiscal 1999. The improvement in gross profit is attributed to a higher mix of retail revenues, a lower mix of off-price sales and the benefit from cost reduction achieved through increased levels of global sourcing.

In 1999, the Company curtailed production and ultimately closed its textile facility, which produced substantially all of the Company's fabrics. Gross profit in 1999 was negatively impacted by costs associated with this closure and the closure of three sewing facilities in the United States. Fiscal 2000 was impacted favorably as a result of the successful transition to sourcing 100% of the Company's fabric requirements following the closure of the textile facility and further movement of sewing production to the Company's offshore facilities and third parties.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES. Selling, general and administrative expenses for fiscal 2000 increased 13.9% to \$137.5 million from \$120.8 million in fiscal 1999. Selling, general and administrative expenses as a percentage of net sales were 29.2% in fiscal 2000 compared to 29.1% in fiscal 1999. The increase in selling, general and administrative expenses includes the variable costs required to support higher revenue levels, investments in brand marketing and retail partnerships and provisions for incentive compensation partially offset by increased levels of royalty and licensing income.

OPERATING INCOME. Operating income for fiscal 2000 increased to \$40.5 million from \$14.9 million in fiscal 1999. Operating income as a percentage of net sales increased to 8.6% in fiscal 2000 from 3.6% in fiscal 1999. Such increase reflects the net effect of changes in gross profit and selling, general and administrative expenses described above.

INTEREST EXPENSE, NET. Interest expense for fiscal 2000 decreased to \$19.0 million from \$20.4 million in fiscal 1999. This decrease reflects lower interest expense on lower average borrowings under the Company's revolving credit facility. Average daily revolver borrowings in 2000 decreased to \$5.0 million from \$25.3 million in 1999. Lower average borrowings are primarily due to lower average gross inventory levels resulting from improved inventory management disciplines. In fiscal 2000, the Company earned approximately \$303,000 in interest income from overnight investments. At December 30, 2000, outstanding debt aggregated \$161.4 million, of which \$41.4 million bore interest at a variable rate, so that an increase of 1% in the applicable rate would increase the Company's annual interest cost by \$414,000. At December 30, 2000, there were no borrowings under the Company's \$65.0 million revolving credit facility. The Company had outstanding letters of credit totaling \$6.0 million as of December 30, 2000.

INCOME TAXES. The Company's 2000 effective tax rate of 40% was more than the prior year's effective tax rate of 32% due to the effect of permanent tax differences, primarily goodwill amortization. In 1999, such permanent differences reduced the tax benefit related to the pre-tax operating loss.

NET INCOME (LOSS). Primarily as a result of the factors described above, the Company reported net income of \$12.7 million in fiscal 2000 compared to a net loss of \$(3.8) million in fiscal 1999.

FISCAL YEAR ENDED JANUARY 1, 2000 COMPARED WITH FISCAL YEAR ENDED JANUARY 2, 1999

NET SALES. Net sales for fiscal 1999 increased 1.6% to \$414.6 million from \$408.2 million in fiscal 1998. This increase includes a 2.2% decrease in wholesale sales offset by a 6.8% increase in retail sales. Wholesale sales for fiscal 1999 decreased to \$231.3 million from \$236.5 million in fiscal 1998. Retail sales for fiscal 1999 increased to \$183.3 million from \$171.7 million in fiscal 1998.

The decrease in wholesale sales reflects:

- lower 1999 sleepwear revenue compared to increases generated from the successful launch of the Dreamakers sleepwear product line in May 1998;
- underperformance of the CARTER'S CLASSICS and playwear product lines; and
- lower layette product revenues resulting from the expiration of the BABY DIOR license in December 1998.

In this increasingly competitive marketplace, revenue gains have been achieved through the frequent introduction of products which are distinctive in fabric and creative application (i.e., embroidery and prints) and which provide value to the consumer. The decline in 1999 revenue reflects the Company's previous insufficient ability to source better products from lower cost manufacturers. As discussed below, the Company made changes in its product sourcing strategy.

In late 1998, the Company began to develop the infrastructure necessary to source products globally. The Company plans to achieve future growth in revenue and profitability by sourcing products at lower costs from manufacturers throughout the world. This strategy is designed to build on the Company's core business strengths in layette and sleepwear product markets and will improve product performance in the highly fragmented children's playwear market.

Wholesale sales in 1999 included a higher mix of off-price sales (merchandise promoted at more than 25% off regular wholesale selling prices) to the secondary market. Off-price sales as a percentage of consolidated sales in 1999 were 5.4% compared to 4.0% in 1998. The higher level of off-price sales reflects management's efforts to reduce excess inventory levels.

The Company's retail comparable store sales increased 3.2% in 1999. In 1999, the Company opened ten stores and closed eight stores. There were 146 stores in operation at January 1, 2000 compared with 144 at January 2, 1999.

GROSS PROFIT. Gross profit for fiscal 1999 decreased 5.9% to \$142.8 million from \$151.7 million in fiscal 1998. Gross profit as a percentage of net sales in fiscal 1999 decreased to 34.4% from 37.2% in fiscal 1998. The reduction in gross profit percentage reflects the higher mix of off-price sales to the secondary market, costs incurred to close sewing facilities in Georgia and Mississippi, the costs to phase-down and close the Company's textile facility in Georgia and the curtailment of production to lower inventory levels.

In 1999, the Company closed three sewing facilities in the United States. Such closures and expansion of sewing capacity in Mexico, Costa Rica and the Dominican Republic have enabled the Company to decrease costs in the most labor-intensive component of its supply chain.

In 1998, the Company expanded its ability to source its products from manufacturers throughout the world. Such products are manufactured, labeled and packaged to Carter's specifications. The Company's global sourcing strategy provides the opportunity to source a broader range of products at lower costs and eliminates the requirement for internal textile capacity. Lower levels of throughput in the Company's textile facility in Barnesville, Georgia and related unabsorbed manufacturing costs negatively impacted 1999 financial results.

In recent years, the domestic textile knit industry experienced increasing levels of overcapacity caused by consolidation and higher levels of global sourcing. Overcapacity resulted in lower prices offered by the Company's fabric suppliers, which in turn, reduced the cost advantages previously gained by Carter's through vertical integration.

As more fully described in Note 16 to the accompanying financial statements, the Company began to phase-down production in its textile facility in the third quarter of 1999. All textile processes, with the exception of printing, were closed by the end of fiscal 1999. The Company has negotiated fabric-sourcing arrangements with its suppliers which will meet current and future fabric requirements. While there may be no near-term cost reduction by sourcing fabrics externally, the Company expects to purchase lower cost fabrics from Mexico and Central America within the next two to three years.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES. Selling, general and administrative expenses for fiscal 1999 decreased 2.8% to \$120.8 million from \$124.3 million in fiscal 1998. Selling, general and administrative expenses as a percentage of net sales decreased to 29.1% in fiscal 1999 from 30.5% in fiscal 1998. The improvement in selling, general and administrative expenses as a percentage of net sales is attributed to a reduction in discretionary spending, including marketing expenditures and incentive compensation to mitigate the impact of manufacturing plant closing costs and production curtailment.

NONRECURRING CHARGE. The nonrecurring charge of \$7.1 million in fiscal 1999 represents the \$6.9 million writedown in the carrying value of assets related to the closure of the textile facility, and the \$0.2 million loss on property, plant and equipment related to closures of the three domestic sewing facilities.

OPERATING INCOME. Operating income for fiscal 1999 decreased to \$14.9 million from \$27.4 million in fiscal 1998 as a result of the net effect of lower margins earned on wholesale sales, the cost of exiting certain manufacturing facilities and the reduction of selling, general and administrative expenses. Operating income as a percentage of net sales decreased to 3.6% in fiscal 1999 from 6.7% in fiscal 1998.

INTEREST EXPENSE. Interest expense for fiscal 1999 decreased to \$20.4 million from \$21.2 million in fiscal 1998. This decrease reflects lower interest expense on lower average borrowings under the Company's revolving credit facility. At January 1, 2000, outstanding debt aggregated \$162.3 million, of which \$42.3 million bore interest at a variable rate, so that an increase of 1% in the applicable rate would increase the Company's annual interest cost by \$423,000. At January 1, 2000, there were no borrowings under the Company's \$65.0 million revolving credit facility. The Company had outstanding letters of credit totaling \$6.0 million as of January 1, 2000.

INCOME TAXES. The Company's 1999 effective tax rate of 32% was less than the prior year's effective tax rate of 43% due to the effect of permanent tax differences, primarily goodwill amortization, in relation to the change in pre-tax income (loss).

NET (LOSS) INCOME. As a result of the factors described above, the Company reported a net loss of \$(3.8) million in fiscal 1999 compared to net income of \$3.5 million in fiscal 1998.

LIQUIDITY AND CAPITAL RESOURCES

The Company's primary cash needs are working capital, capital expenditures and debt service. The Company has financed its working capital, capital expenditures and debt service requirements primarily through internally generated cash flow, in addition to funds borrowed under the Company's credit facilities. Holdings is dependent upon dividends and other payments from Carter's to fund its obligations and meet its cash needs. Accordingly, Holdings' ability to pay interest on the \$20.0 million of 12% Senior Subordinated Notes and to repay the Notes at maturity will be dependent upon earnings and cash flows of Carter's and payment of funds by Carter's to Holdings in the form of dividends or loans. The Senior Credit Facility imposes certain covenants, requirements and restrictions on actions by the Company and its subsidiaries that, among other things, restrict the payment of dividends by Carter's to Holdings except under certain specified conditions. The Company does not expect this to negatively impact Holdings' ability to meet its cash obligations. Likewise at December 30, 2000 and January 1, 2000, Holdings was effectively precluded from declaring or paying dividends on its capital stock.

Net cash provided by operating activities in fiscal years 2000, 1999 and 1998 was \$24.2 million, \$36.5 million and \$7.1 million, respectively.

Net cash flow provided by operating activities in fiscal 2000 was \$24.2 million, a decrease of \$12.3 million compared to fiscal year 1999. This decrease is attributed to the investments required to support higher revenue levels. Year-end inventory levels grew to \$92.4 million at fiscal year end 2000 from \$79.6 million at fiscal year end 1999. Average net inventory levels were \$92.1 million in fiscal 2000 compared to \$103.1 million in fiscal 1999.

The Company invested \$17.2 million, \$12.7 million and \$18.0 million in capital expenditures during fiscal years 2000, 1999 and 1998, respectively. Although there are no material commitments for capital expenditures, the Company plans capital expenditures of approximately \$23.0 million in fiscal 2001.

At December 30, 2000, the Company had approximately \$161.4 million of indebtedness outstanding, consisting of \$20.0 million of Holdings 12% Series B Senior Subordinated Notes (due 2008), \$100.0 million of 10 3/8% Series A Senior Subordinated Notes (due 2006), \$41.4 million in term loan borrowings under the Senior Credit Facility and no borrowings outstanding under the \$65.0 million revolving credit portion of the Senior Credit Facility (exclusive of approximately \$6.0 million of outstanding letters of credit). At December 30, 2000, the Company had approximately \$59.0 million of financing available under the revolving credit portion of the Senior Credit Facility.

The term loan has a final scheduled maturity date of October 31, 2003 and is required to be repaid in 14 consecutive semi-annual installments totaling \$0.9 million in each of fiscal years 1997 through 2000, \$5.4 million in fiscal year 2001, \$13.5 million in fiscal year 2002 and \$22.5 million in fiscal year 2003. The revolving credit portion of the Senior Credit Facility will mature on October 31, 2001 and has no scheduled interim amortization. The Company is in the process of negotiating the terms of the revolving credit portion of the Senior Credit Facility to include an extension of the maturity date and to increase the limitation for annual capital expenditures. No principal payments are required on the \$20.0 million or \$100.0 million Notes prior to their scheduled maturity in 2008 and 2006, respectively.

The Company believes that cash generated from operations, together with amounts available under the revolving portion of the Senior Credit Facility, will be adequate to meet its debt service requirements, capital expenditures and working capital needs for the foreseeable future, although no assurance can be given in this regard. Holdings will fund its debt service requirements through permitted dividend payments from Carter's.

EFFECTS OF INFLATION

The Company is affected by inflation primarily through the purchase of raw materials, increased operating costs and expenses and higher interest rates. The effects of inflation on the Company's operations have not been material in recent years.

SEASONALITY

The Company experiences seasonal fluctuations in its sales and profitability, with generally lower sales and gross profit in the first and second quarters of its fiscal year. The Company believes that seasonality of sales and profitability is a factor that affects the baby and children's apparel industry generally and is primarily due to retailers' emphasis on price reductions in the first quarter and promotional retailers' and manufacturers' emphasis on closeouts of the prior year's product lines.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

In the operation of its business, the Company has market risk exposures to foreign sourcing, raw material prices and interest rates. Each of these risks and the Company's strategies to manage the exposure is discussed below.

The Company currently sources over 90% of its sewing production from its offshore operations as well as contractors. As a result, the Company may be adversely affected by political instability resulting in the disruption of trade from foreign countries in which the Company's manufacturing facilities are located, the imposition of additional regulations relating to imports, duties, taxes and other charges on imports, any significant decreases in the value of the dollar against foreign currencies and restrictions on the transfer of funds. These and other factors could result in the interruption of production in offshore facilities or a delay in the receipt of the products by the Company in the United States. The Company's future performance may be subject to such factors, which are beyond the Company's control, and there can be no assurance that such factors would not have a material adverse effect on the Company's financial condition and results of operations.

The Company's operating results are subject to risk from interest rate fluctuations on debt which carries variable interest rates. At December 30, 2000, outstanding debt aggregated \$161.4 million, of which \$41.4 million bore interest at a variable rate, so that an increase of 1% in the applicable rate would increase the Company's annual interest cost by \$414,000.

REPORT OF INDEPENDENT ACCOUNTANTS

To the Board of Directors and Stockholders of
Carter Holdings, Inc.

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of operations, cash flows and changes in stockholders' equity present fairly, in all material respects, the consolidated financial position of Carter Holdings, Inc. and its subsidiaries (the "Company") as of December 30, 2000 and January 1, 2000 and the consolidated results of their operations and their cash flows for the years ended December 30, 2000, January 1, 2000 and January 2, 1999, in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 2 to the consolidated financial statements, the Company changed its method of accounting for revenue recognition in fiscal 2000.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1--THE COMPANY:

Carter Holdings, Inc. ("Holdings") is a holding company whose primary asset consists of an investment in 100% of the outstanding capital stock of The William Carter Company, Inc. ("Carter's"). On October 30, 1996, Holdings, a company organized on behalf of affiliates of INVESTCORP S.A. ("Investcorp"), management and certain other investors, acquired 100% of the previously outstanding common and preferred stock of Carter's (the "Acquisition") from MBL Life Assurance Corporation, CHC Charitable Irrevocable Trust and certain management stockholders for a total financed purchase price of \$226.1 million. For purposes of identification and description, Carter's is referred to as the "Predecessor" for the period prior to the Acquisition.

The Acquisition was accounted for by the purchase method. Accordingly, the assets and liabilities of the Predecessor were adjusted, at the acquisition date, to reflect the allocation of the purchase price based on estimated fair values.

NOTE 2--NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Carter's designs, manufactures, sources and markets premier branded childrenswear under the CARTER'S, CARTER'S CLASSICS, TYKES and BABY TYKES labels. Carter's manufactures its products in its plants located in the southern United States, Costa Rica, the Dominican Republic and Mexico. Carter's also sources its products through contractual arrangements throughout the world. Products are manufactured for wholesale distribution to major domestic retailers and for Carter's 147 retail outlet stores that market its brand name merchandise and certain products manufactured by other companies.

RECLASSIFICATIONS:

Certain prior year amounts have been reclassified for comparative purposes.

PRINCIPLES OF CONSOLIDATION:

The consolidated financial statements include the accounts of Holdings, Carter's and Carter's wholly-owned subsidiaries (all together the "Company"). These subsidiaries consist of operations in Costa Rica, the Dominican Republic and Mexico. These operations represented approximately 85%, 78% and 59% of the Company's sewing production for fiscal years 2000, 1999 and 1998, respectively. Total net assets (primarily property, plant and equipment and inventory) of the international subsidiaries were approximately \$15.2 million and \$15.5 million at December 30, 2000 and January 1, 2000, respectively. All intercompany transactions and balances have been eliminated in consolidation.

FISCAL YEAR:

The Company's fiscal year ends on the Saturday in December or January nearest the last day of December. The accompanying consolidated financial statements reflect the Company's financial position as of December 30, 2000 and January 1, 2000 and results of operations for the fiscal years ended December 30, 2000, January 1, 2000 and January 2, 1999. Each of the fiscal years ended December 30, 2000 (fiscal 2000), January 1, 2000 (fiscal 1999) and January 2, 1999 (fiscal 1998) contain 52 weeks.

CASH AND CASH EQUIVALENTS:

The Company considers all highly liquid investments that have original maturities of three months or less to be cash equivalents. The Company had cash deposits, in excess of deposit insurance limits, in four and nine banks at December 30, 2000 and January 1, 2000, respectively.

ACCOUNTS RECEIVABLE:

Approximately 75% of the Company's gross accounts receivable at December 30, 2000 and January 1, 2000 were from its ten largest wholesale customers, primarily major retailers. Of these customers, four and three have individual receivable balances in excess of 10% of gross accounts receivable at December 30, 2000 and January 1, 2000, respectively, but not more than 20%. Sales to these customers represent comparable percentages to total wholesale revenues.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

NOTE 2--NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

INVENTORIES:

Inventories are stated at the lower of cost (first-in, first-out basis for wholesale inventories and retail method for retail inventories) or market.

PROPERTY, PLANT AND EQUIPMENT:

Property, plant and equipment are stated at cost less accumulated depreciation and amortization which includes the amortization of assets recorded under capital leases. When fixed assets are sold or otherwise disposed, the accounts are relieved of the original costs of the assets and the related accumulated depreciation and any resulting profit or loss is credited or charged to income. For financial reporting purposes, depreciation and amortization are computed on the straight-line method over the estimated useful lives of the assets as follows: buildings--15 to 50 years and machinery and equipment--3 to 10 years. Leasehold improvements and fixed assets purchased under capital leases are amortized over the lesser of the asset life or related lease term.

TRADENAME AND COST IN EXCESS OF FAIR VALUE OF NET ASSETS ACQUIRED:

Cost in excess of fair value of net assets acquired ("goodwill") represents the excess of the cost of the Acquisition over the fair value of the net assets acquired.

The tradename and goodwill are each being amortized on a straight-line basis over their estimated lives of 40 years. Accumulated amortization of the tradename at December 30, 2000 and January 1, 2000 was \$10,417,000 and \$7,917,000, respectively. Accumulated amortization of goodwill at December 30, 2000 and January 1, 2000 was \$3,478,000 and \$2,739,000, respectively.

IMPAIRMENT OF LONG-LIVED ASSETS:

The Company reviews long-lived assets, including property, plant and equipment and certain intangibles (tradenname and goodwill), for impairment whenever events or changes in circumstances indicate that the carrying amount of such an asset may not be recoverable. Intangibles are also reviewed at least annually. Management determines whether there has been a permanent impairment on such assets held for use in the business by comparing anticipated undiscounted future cash flows from operating activities involving the asset to the carrying value of the asset. The amount of any resulting impairment will be calculated using the present value of the same cash flows. The factors considered in this assessment would include operating results, trends and prospects, as well as the effects of demand, competition and other economic factors. Long-lived assets to be disposed of are valued at the lower of carrying amount or net realizable value.

DEFERRED DEBT ISSUANCE COSTS:

Debt issuance costs are deferred and amortized to interest expense using the straight-line method, which approximates the effective interest method, over the lives of the related debt. Amortization approximated \$1,601,000, \$1,592,000 and \$1,606,000 for the years ended December 30, 2000, January 1, 2000 and January 2, 1999, respectively.

REVENUE RECOGNITION:

Revenues consist of sales to customers, net of returns and markdowns. The Securities and Exchange Commission ("SEC") issued Staff Accounting Bulletin No. 101, "Revenue Recognition in Financial Statements" ("SAB 101") in December 1999. SAB 101 summarizes certain SEC staff views in applying generally accepted accounting principles to revenue recognition in financial statements. The Company adopted the provisions of SAB 101 in the fourth quarter of fiscal 2000. Accordingly, the Company revised its method of accounting for revenue recognition retroactive to the beginning of fiscal 2000. Previously, the Company had recognized revenue at the point of shipment for all wholesale customers. However, for certain shipments, although title has passed, the Company effectively retains the risks and rewards of ownership until the goods reach the specified customer. Under the new accounting method, the Company now recognizes revenue on wholesale sales at the point where both title has passed and all the risks and rewards of ownership have been transferred. Retail store revenues continue to be recognized at the time of sale, as the earnings process is then complete.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

NOTE 2--NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

REVENUE RECOGNITION:(CONTINUED)

The cumulative effect of the accounting change on prior years resulted in a charge to income of approximately \$354,000 (net of income tax benefit of approximately \$217,000), which is presented as a separate component of net income for fiscal 2000. The effect of the change on fiscal 2000 operating results was to decrease income before the cumulative effect of the accounting change by \$160,000 (which is net of income tax benefit of \$98,000).

The pro forma amounts presented on the accompanying consolidated statements of operations for fiscal 2000, 1999 and 1998 were calculated assuming the accounting change was made retroactively to prior years.

Under the new accounting method, fiscal 2000 includes \$2.2 million of net sales that were included in the cumulative effect adjustment as of January 2, 2000, all of which would have been recognized in the first quarter of fiscal 2000. The impact of the accounting change on amounts previously reported for the interim periods of fiscal 2000 is as follows (\$000):

	FIRST QUARTER		SECOND QUARTER		THIRD QUARTER	
	AS PREVIOUSLY REPORTED	AS RESTATED	AS PREVIOUSLY REPORTED	AS RESTATED	AS PREVIOUSLY REPORTED	AS RESTATED
Net sales	\$ 98,123	\$ 97,823	\$ 97,070	\$ 95,851	\$145,457	\$145,639

Net income (loss)	\$ 547	\$ 71	\$ (88)	\$ (330)	\$ 7,531	\$ 7,591

STOCK-BASED EMPLOYEE COMPENSATION ARRANGEMENTS:

The Company accounts for stock-based compensation in accordance with the provisions of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations. Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation," ("SFAS 123") was adopted in 1996 for disclosure purposes only (see Note 8).

ACCOUNTING FOR SHIPPING AND HANDLING FEES AND COSTS:

The Company has adopted the provisions of the consensus on Emerging Issues Task Force Issue 00-10, "Accounting for Shipping and Handling Fees and Costs" ("Issue 00-10") during the fourth quarter of fiscal 2000. The Company classifies shipping and handling fees billed to customers as revenue and includes the corresponding cost in cost of goods sold. Shipping and handling costs that are absorbed by the Company are included in selling, general and administrative expenses and amounted to approximately \$14,289,000, \$13,675,000 and \$12,412,000 in fiscal 2000, fiscal 1999 and fiscal 1998, respectively.

ROYALTIES AND LICENSE FEES:

The Company receives royalties and license fees, which are recognized as earned. Royalties and license fees amounted to approximately \$5.8 million, \$4.2 million and \$2.5 million for fiscal years 2000, 1999 and 1998, respectively, and are included as a reduction of selling, general and administrative expenses in the accompanying consolidated statements of operations.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

NOTE 2--NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

INCOME TAXES:

The Company accounts for income taxes in accordance with the provisions of Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" ("SFAS 109"). In accordance with SFAS 109, the deferred tax provision is determined under the liability method. Deferred tax assets and liabilities are recognized based on differences between the book and tax bases of assets and liabilities using presently enacted tax rates. Valuation allowances are established when it is more likely than not that a deferred tax asset will not be recovered. The provision for income taxes is generally the sum of the amount of income taxes paid or payable for the year as determined by applying the provisions of enacted tax laws to the taxable income for that year, the net change during the year in the Company's deferred tax assets and liabilities and the net change during the year in any valuation allowances.

SUPPLEMENTAL CASH FLOWS INFORMATION:

Interest paid in cash approximated \$17,380,000, \$18,801,000 and \$19,614,000 for the years ended December 30, 2000, January 1, 2000 and January 2, 1999, respectively. Income taxes paid in cash approximated \$6,774,000, \$756,000 and \$2,345,000 for the years ended December 30, 2000, January 1, 2000 and January 2, 1999, respectively. Equipment acquired under capital leases approximated \$2,296,000 for the year ended January 1, 2000.

USE OF ESTIMATES IN THE PREPARATION OF THE CONSOLIDATED FINANCIAL STATEMENTS:

The preparation of these consolidated financial statements in conformity with generally accepted accounting principles requires management of the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities, at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

RECENT ACCOUNTING PRONOUNCEMENTS:

In 1998, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities", ("SFAS 133"). In June 1999, the FASB issued SFAS No. 137, "Accounting for Derivative Instruments and Hedging Activities - Deferral of the Effective Date of FASB Statement No. 133 - An Amendment of FASB Statement No. 133". Provisions of SFAS 133 are effective as of the beginning of fiscal 2001. SFAS 133 establishes accounting and reporting standards requiring that all derivative instruments, including certain derivative instruments embedded in other contracts, be recorded in the balance sheet as either assets or liabilities measured at fair value. SFAS 133 requires that changes in the derivative instrument's fair value be recognized currently in earnings, unless specific hedge accounting criteria are met. SFAS 133 is not expected to have a material impact on the financial position or results of operations of the Company.

NOTE 5--LONG-TERM DEBT:

Long-term debt consisted of the following (\$000):

	DECEMBER 30, 2000	JANUARY 1, 2000
	-----	-----
Senior Credit Facility term loan.....	\$ 41,400	\$ 42,300

The Senior Credit Facility provides for a \$50.0 million Tranche B term loan facility. The Tranche B term loans have a final scheduled maturity date of October 31, 2003. The principal amounts of the Tranche B term loans are required to be repaid in 14 consecutive semi-annual installments totaling \$0.9 million in each of fiscal years 1997 through 2000, \$5.4 million in fiscal year 2001, \$13.5 million in fiscal year 2002 and \$22.5 million in fiscal year 2003. In November 1996, proceeds of the 10 3/8% Senior Subordinated Notes (the "Notes") were used to repay \$5.0 million of the term loan. The repayment schedule has been adjusted ratably for this payment.

In June 1998, Carter's amended its Senior Credit Facility to benefit from favorable changes in the interest rate environment since the Acquisition and to support higher levels of demand for the Company's products than had been anticipated at Acquisition. As amended, the Senior Credit Facility provides for a \$65.0 million revolving credit facility. The revolving credit facility will expire on the earlier of (a) October 31, 2001 or (b) such other date as the revolving credit commitments thereunder shall terminate in accordance with the terms of the Senior Credit Facility. There is no scheduled interim amortization of principal. The facility has a sublimit of \$15.0 million for letters of credit of which \$6.0 million was used for letters of credit as of December 30, 2000 and January 1, 2000. A commitment fee of 1/2 of 1% per annum is charged on the unused portion of the revolving credit facility. The Company is in the process of negotiating the terms of the revolving credit portion of the Senior Credit Facility to include an extension of the maturity date and to increase the limitation for annual capital expenditures.

Borrowings under the Senior Credit Facility accrue interest at either the Alternate Base Rate (the "Alternate Base Rate") or an adjusted Eurodollar Rate (the "Eurodollar Rate"), at the option of the Company, plus the applicable interest margin. The Alternate Base Rate at any time is determined to be the highest of (i) the Federal Effective Funds Rate plus 1/2 of 1% per annum; (ii) the Base CD Rate (as defined in the Credit Agreement) plus 1% per annum; or (iii) The Chase Manhattan Bank's Prime Rate. The applicable interest margin for loans that accrue interest at the Eurodollar Rate is 2.25% per annum for the revolving credit facility and is 1.50% per annum for loans that accrue interest at the Alternate Base Rate. The applicable

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

NOTE 5--LONG-TERM DEBT: (CONTINUED)

interest margin with respect to Tranche B term loans is 2.50% per annum for loans that accrue interest at the Eurodollar Rate and is 2.00% per annum for loans that accrue interest at the Alternate Base Rate. The amendment provides for additional reductions in the interest margin based on the achievement of certain leverage ratios. The effective interest rate on variable rate Senior Credit Facility borrowings outstanding at December 30, 2000, January 1, 2000 and January 2, 1999 was 8.7%, 8.7% and 8.0%, respectively. Interest on the Senior Credit Facility is payable quarterly.

The Senior Credit Facility requires that upon a public offering by Holdings or any subsidiary of Holdings, of its common or other voting stock, 50% of the net proceeds from such offering (only after satisfaction of certain specified obligations) is required to be applied toward the prepayment of indebtedness under the Senior Credit Facility. Upon the incurrence of any additional indebtedness (other than indebtedness permitted under the Senior Credit Facility), or upon the receipt of proceeds from certain asset sales and exchanges, 100% of the net proceeds from such incurrence, sale or exchange is required to be applied. In addition, the Senior Credit Facility requires that either 75% or 50% (depending on certain circumstances) of Excess Cash Flow (as defined in the Senior Credit Facility) be applied toward the prepayment of indebtedness under the Senior Credit Facility. Such prepayments are required to be so applied first to the prepayment of the term loans and second to reduce permanently the revolving credit commitments. Subject to certain conditions, the Company may, from time to time, make optional prepayments of loans without premium or penalty.

The loans are collateralized by a first priority interest in substantially all the personal property and certain real property of Carter's and a pledge of all the issued and outstanding stock of Carter's, as well as 65% of the issued and outstanding stock of Carter's foreign subsidiaries.

The Senior Credit Facility imposes certain covenants, requirements and restrictions on actions by Carter's and its subsidiaries that, among other things, restrict: (i) the incurrence and existence of indebtedness; (ii) consolidations, mergers and sales of assets; (iii) the incurrence and existence of liens or other encumbrances; (iv) the incurrence and existence of contingent obligations; (v) the payment of dividends and repurchases of common stock; (vi) prepayments and amendments of certain subordinated debt instruments and equity; (vii) investments, loans and advances; (viii) capital expenditures; (ix) changes in fiscal year; (x) certain transactions with affiliates; and (xi) changes in lines of business. In addition, the Senior Credit Facility requires that Carter's comply with specified financial ratios and tests, including minimum cash flow, a maximum ratio of indebtedness to cash flow and a minimum interest coverage ratio.

In November 1996, Carter's issued 10 3/8% Senior Subordinated Notes. The proceeds from the Notes were used to repay \$90.0 million of Acquisition-related financing and \$5.0 million of the Senior Credit Facility term loan.

In April 1997, Carter's completed a registration with the Securities and Exchange Commission related to an Exchange Offer for \$100.0 million of 10 3/8% Series A Senior Subordinated Notes for a like amount of 10 3/8% Senior Subordinated Notes issued in a November 1996 private placement. The terms and provisions of the Notes were essentially unchanged.

Interest on the 10 3/8% Notes is to be paid semi-annually on June 1 and December 1 of each year. The 10 3/8% Notes will be redeemable, in whole or in part, at the option of the Company on or after December 1, 2001 at the following redemption prices, plus accrued interest to the date of redemption:

NOTE 5--LONG-TERM DEBT: (CONTINUED)

The 10 3/8% Notes are uncollateralized. The 10 3/8% Notes contain provisions and covenants, including limitations on other indebtedness, restricted payments and distributions, sales of assets and subsidiary stock, liens and certain other transactions.

The 12% Senior Subordinated Notes ("Holdings Notes") were originally issued by Holdings to Investcorp affiliates on October 30, 1996 in connection with the Acquisition.

In March 1997, pursuant to a Private Placement for \$16,350,000 of the \$20,000,000 outstanding Holdings Notes, Holdings agreed to register the Holdings Notes with the Securities and Exchange Commission. In July 1998, the Company completed a registration with the Securities and Exchange Commission related to an Exchange Offer for \$20.0 million of Series B 12% Senior Subordinated Notes for a like amount of the Holdings Notes. The terms and provisions of the Holdings Notes were essentially unchanged.

Interest on the Holdings notes is to be paid semi-annually on May 1 and November 1 of each year. The Holdings Notes are redeemable, in whole or in part, at the option of the Company on or after the dates indicated, at the following redemption prices, plus accrued interest to the date of redemption:

Upon a "Change in Control", (as defined in the indenture pursuant to which the Holdings Notes were issued (the "Subordinated Note Indenture")), each holder shall have the rights to require that Holdings repurchase all or any part of such Holdings Notes at a purchase price in cash equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the date of purchase.

The Holdings Notes are general uncollateralized obligations of Holdings and are subordinated in right of payment to all existing and future Senior Indebtedness (as defined in the Subordinated Notes Indenture) of Holdings. In addition, the Holdings Notes are subordinated to all debts, liabilities, and obligations of Carter's. The Holdings Notes contain provisions and covenants, including limitations on other indebtedness, dividends and distributions, transactions with affiliates, sales of assets and subsidiary stock, liens and certain other transactions.

As noted above, provisions of Carter's and Holdings' debt agreements contain restrictions and limitations which effectively preclude dividends, distribution, or advances from Carter's to Holdings, except under certain specified conditions. Restricted net assets of Carter's at December 30, 2000 and January 1, 2000 totaled approximately \$65.4 million and \$53.6 million, respectively. Likewise, at December 30, 2000 and January 1, 2000, Holdings was effectively precluded from declaring or paying dividends on its Capital Stock.

Aggregate minimum scheduled maturities of long-term debt subsequent to December 30, 2000 are as follows (\$000): 2001--\$5,400; 2002--\$13,500; 2003--\$22,500; 2004--\$0; 2005--\$0; 2006--\$100,000; 2007--\$0 and 2008--\$20,000.

The fair value of the Company's 12% Notes was deemed even with and was approximately \$2.0 million lower than the book value at December 30, 2000 and January 1, 2000, respectively. The fair value of the 10 3/8% Notes was approximately \$3.0 million and \$11.0 million lower than book value at December 30, 2000 and January 1, 2000, respectively. The fair values were estimated based on similar issues or on current rates offered to the Company for debt of the same remaining maturities. The fair value of the Company's other long-term debt was deemed to approximate its carrying value as of December 30, 2000 and January 1, 2000.

NOTE 6--CAPITAL STOCK:

Features of Holdings' various classes of capital stock are specified in a Certificate of Designation (the "Certificate"). The Certificate specifies, among other things, restrictions on transfers of shares; certain "tag along rights" of the Class A and Class C shares pursuant to certain transfers of Class D shares; and redemptions required in connection with tag-along transfers or warrant exercises (see below).

In the event of an initial public offering or sale of Holdings, as defined in the Certificate, all issued and outstanding shares of Class A, Class C and Class D Stock not otherwise redeemed by Holdings shall automatically convert into shares of Common Stock on a one-for-one basis.

Holder of shares of Class D Stock and Common Stock shall be entitled to one vote per share of such stock held, on all matters. Until a change in control of the Company, as defined, holders of Class A or Class C stock shall not have any voting rights except that the holders of the Class A and Class C Stock shall have the right to one vote for each share of such stock held as to (i) the approval of any amendments, or the alteration or repeal, whether by merger, consolidation or otherwise, of any provision of the Certificate or the Articles of Organization that would increase or decrease the par value of those shares of the Class A or Class C Stock, or alter or change the powers, preferences, or special rights of the shares of the Class A or Class C Stock, so as to affect such holders adversely; and (ii) matters as required under law.

Effective upon a change in control, holders of shares of Class A or Class C Stock shall be entitled to one vote for each share of stock held, on all matters.

In the event of liquidation of Holdings, each holder of Class A or Class C Stock shall be entitled to receive out of the net assets of the Company or the proceeds thereof available for distribution to stockholders, before any payment or distribution shall be made or set aside for payment on the Class D or Common Stock upon such liquidation, the amount of \$.001 per share. Such distribution shall be allocated on a pro rata basis according to the number of shares of Class A or Class C Stock held by each stockholder.

Certain officers and employees of the Company held 119,863 and 120,032 shares of Class C Stock as of December 30, 2000 and January 1, 2000, respectively. Under certain circumstances, these officers and employees have the right to require an affiliate of Investcorp to purchase their Class C shares. In such cases, the Company has a right of first refusal to purchase such shares.

In connection with the Acquisition, Holdings issued a Class A Warrant to an affiliate of Investcorp. Upon an initial public offering or sale of Holdings, as defined, the Class A Warrant entitles its holder to purchase, at a specified price, a specified number of shares of Holdings Common Stock. This will be accomplished via a redemption by Holdings of a corresponding number of Class A shares and issuance by Holdings to the Warrant holder of a corresponding number of common shares.

NOTE 7--EMPLOYEE BENEFIT PLANS:

The Company offers a comprehensive post-retirement medical plan to current and certain future retirees and their spouses until they become eligible for Medicare or a Medicare Supplement plan. The Company also offers life insurance to current and certain future retirees. Employee contributions are required as a condition of participation for both medical benefits and life insurance and the Company's liabilities are net of these employee contributions.

The following is a reconciliation of the Accumulated Post-Retirement Benefit Obligations ("APBO") under this plan (\$000):

	YEARS ENDED	
	DECEMBER 30, 2000	JANUARY 1, 2000
	-----	-----
Benefit Obligation (APBO) at beginning of year.....	\$ 9,347	\$ 10,589
Service cost.....	140	166
Interest cost.....	672	639
Plan participants' contribution.....	768	615

Benefits paid.....	(1,647)	(1,446)
	-----	-----
APBO at end of year.....	\$ 9,878	\$ 9,347
	=====	=====

The Company's contribution for these post-retirement benefit obligations was \$878,644 in fiscal 2000 and \$831,448 in fiscal 1999.

The funded status of the plan is reconciled to the accrued post-retirement benefit liability recognized in the accompanying consolidated balance sheets, as follows (\$000):

	DECEMBER 30, 2000	JANUARY 1, 2000
	-----	-----
Funded status (unfunded APBO).....	\$ 9,878	\$ 9,347

	-----	-----
Accrued benefit cost.....	\$ 8,768	\$ 8,836
	=====	=====

The discount rates used in determining the APBO as of December 30, 2000 and January 1, 2000 were 7.00% and 7.50%, respectively.

NOTE 7--EMPLOYEE BENEFIT PLANS: (CONTINUED)

The components of post-retirement benefit expense charged to operations are as follows (\$000):

	YEARS ENDED		
	DECEMBER 30, 2000	JANUARY 1, 2000	JANUARY 2, 1999
Service cost - benefits attributed to service during the period	\$140	\$166	\$169
Interest cost on accumulated post-retirement benefit obligation	672	639	649
Amortization of net actuarial loss	--	56	34
Total net periodic post-retirement benefit cost	<u>\$812</u>	<u>\$861</u>	<u>\$852</u>

The effects on the Company's plan of all future increases in health care costs are borne by employees; accordingly, increasing medical costs are not expected to have any material effect on the Company's future financial results.

The Company has an obligation under a defined benefit plan covering certain former officers. At December 30, 2000 and January 1, 2000, the present value of the estimated remaining payments under this plan was approximately \$1.4 million and \$1.5 million, respectively, and is included in other current and long-term liabilities.

The Company also sponsors a defined contribution plan within the U.S. The plan covers employees who are at least 21 years of age and have completed three months of service, during which at least 257 hours were served. The plan provides for the option for employee contributions of between 1% and 15% of salary, of which the Company matches up to 2.5% of the employee contribution, at a rate of 75% on the first 2% and 50% on the second 2%. The Company's expense for the defined contribution plan totaled approximately (\$000): \$1,017 for the fiscal year ended December 30, 2000, \$997 for the fiscal year ended January 1, 2000 and \$906 for the fiscal year ended January 2, 1999.

NOTE 8--MANAGEMENT STOCK INCENTIVE PLAN:

At the Acquisition, Holdings adopted a Management Stock Incentive Plan (the "Plan") in order to provide incentives to employees and directors of the Company by granting them awards tied to Class C stock of Holdings. Options for up to 75,268 shares may be granted to certain employees under the Plan, of which 286 remained ungranted at December 30, 2000 and January 1, 2000. The exercise price of all options granted since inception is \$60.00 per share, which is the same price per share paid by existing holders of Holdings' Class C stock, and which is deemed to be the fair market value of the stock at the time the options were granted. Accordingly, no compensation expense has been recognized on the options granted. All options granted vest ratably over five years (contingent upon the Company meeting specific earnings targets) and expire in ten years, with weighted average remaining contractual lives of approximately six years at December 30, 2000.

NOTE 8--MANAGEMENT STOCK INCENTIVE PLAN: (CONTINUED)

A summary of stock options (in number of shares that may be purchased) is presented below:

	YEARS ENDED		
	DECEMBER 30, 2000	JANUARY 1, 2000	JANUARY 2, 1999
Outstanding, beginning of year	74,982	71,255	67,302

Outstanding, end of year	74,982	74,982	71,255
Exercisable, end of year	56,890	42,889	26,511

The fair value of each granted option, at the date of grant, has been estimated to be \$19.04 for options granted during fiscal 1999 and \$19.78 for options granted during fiscal 1998. The fair value of the options granted was estimated using a minimum value method, at an assumed risk free interest rate of 5.5% for options granted during fiscal 1999 and 5.0% for options granted during fiscal 1998. The expected life of the options was estimated to be 7.13 years for options granted during fiscal 1999 and eight years for fiscal 1998. No dividends were assumed.

If the fair value based method required by SFAS 123 had been applied, estimated compensation expense for the years ended December 30, 2000, January 1, 2000 and January 2, 1999 would have been approximately \$418,000, \$418,000 and \$414,000, respectively, resulting in pro forma net income (loss) of approximately \$12,404,000, \$(4,063,000) and \$3,260,000, respectively.

NOTE 11--CONTINGENCIES:

The Company is subject to various federal, state and local laws that govern activities or operations that may have adverse environmental effects. Noncompliance with these laws and regulations can result in significant liabilities, penalties and costs. From time to time, operations of the Company have resulted or may result in noncompliance with or liability pursuant to environmental laws. Carter's is in the final stages of resolving an environmental matter associated with waste deposited at or near a landfill in Lamar County, Georgia in the 1970's. In 1999, the Company established a reserve to provide for its share of the total estimated costs required to resolve this matter. These costs are estimated to be less than \$1.0 million. However, there can be no assurance that this estimate will prove accurate. Generally, compliance with environmental laws has not had a material impact on the Company's operations, but there can be no assurance that future compliance with such laws will not have a material adverse effect on the Company or its operations.

NOTE 14--RELATED PARTY TRANSACTIONS:

In connection with the closing of the Acquisition, the Company entered into an agreement for management advisory and consulting services (the "Management Agreement") with Investcorp International, Inc. ("International") pursuant to which the Company agreed to pay International \$1.35 million per annum for a five-year term. At the closing of the Acquisition, the Company prepaid International \$4.05 million for the first three years of the term of the Management Agreement in accordance with its terms.

In January 2000, a loan to an officer in the amount of \$4.3 million was issued, the proceeds of which were used by the officer to repay a previous loan from the Company in the amount of \$1.5 million. The \$4.3 million loan is payable in annual installments of \$600,000 commencing on March 31, 2002, and thereafter on each anniversary thereof until such principal amount and all accrued and unpaid interest thereon has been repaid. The loan has recourse and is collateralized by the officer's stock in Holdings and bears interest at the average rate paid by the Company under the revolving portion of its Senior Credit Facility. The loan is prepayable with proceeds of any disposition of the officer's stock in Holdings.

During fiscal 2000, 1999 and 1998, Holdings repurchased 1,169, 8,450 and 5,358 shares, respectively, of its Class C Stock owned by former Company employees for cash payments totaling approximately \$70,000, \$507,000 and \$320,000, respectively. In each of fiscal 2000 and 1999, Holdings issued 1,000 shares to employees at a fair value of \$60,000. During fiscal 1998, Holdings sold 1,000 shares of Class C Stock to an employee of the Company for \$60,000 and issued 500 shares to another employee at a fair value of \$30,000.

NOTE 15--SEGMENT INFORMATION:

The Company reports segment information in accordance with the provisions of Statement of Financial Accounting Standards No. 131, "Disclosure about Segments of an Enterprise and Related Information" ("SFAS 131") which requires segment information to be disclosed based on a "management approach". The management approach refers to the internal reporting that is used by management for making operating decisions and assessing the performance of the Company's reportable segments. SFAS 131 also requires disclosure about products and services, geographic areas and major customers. For purposes of complying with SFAS 131, the Company has identified its two reportable segments as "Wholesale" and "Retail". The Company generally sells the same products in each business segment. Wholesale products are offered through the Company's wholesale distribution channel while the retail segment reflects the operations of the Company's outlet stores. The Accounting policies of the segments are the same as those described in Note 2--"Nature of Business and Summary of Significant Accounting Policies".

In fiscal 2000, the Company reassessed its process for evaluating the financial results of each reportable segment. Effective December 30, 2000, each segment's results include the costs directly related to the segment's revenue and all other costs are allocated based on relationship to consolidated net sales or units produced to support each segment's revenue. Prior to December 30, 2000, the Company determined the Retail segment's earnings before interest, taxes, depreciation and amortization expenses ("EBITDA") on a direct contribution basis only and did not include allocations of all costs incurred to support Retail operations. The wholesale segment, previously referred to as "Wholesale and Other", included all other revenue and expenses of the Company not directly related to the Retail segment. Management believes that its revised process for measurement provides a more meaningful analysis of each segment's financial results. Prior year amounts have been reclassified to conform to the current year presentation. Under the old method, EBITDA for the Wholesale and Other segment would have been approximately \$414,000, \$(1,132,000) and \$5,056,000 for fiscal years 2000, 1999 and 1998, respectively, and EBITDA for the Retail segment would have been approximately \$57,627,000, \$39,966,000 and \$37,965,000 for fiscal years 2000, 1999 and 1998, respectively.

The table below presents certain segment information for the periods indicated (\$000):

The Company's international operations consist primarily of sewing facilities and, accordingly, no revenues are recorded at these locations.

NOTE 16--TEXTILE PLANT PHASE-DOWN:

Historically, the Company met most of its fabric requirements through its textile operations located in Barnesville, Georgia. During 1999, the Company developed a plan to take advantage of alternative fabric sourcing opportunities and, in the third quarter of 1999, began to phase-down production in its textile operations. All textile processes, with the exception of printing, were discontinued by the end of fiscal 1999.

Financial results for fiscal 1999 included a nonrecurring charge of \$6,865,000 representing the impairment adjustment required to reduce the carrying value of land, buildings and equipment associated with the textile facility in Barnesville, Georgia to their estimated net realization value of \$1,950,000. In fiscal 2000, \$627,000 of these assets were sold. The remaining assets are presented as assets held for sale on the accompanying December 30, 2000 balance sheet. It is estimated that approximately \$373,000 of equipment will be sold during the current year with the remaining \$950,000 of land, buildings and equipment sold in future years.

During 1999, the Company also closed three domestic sew plants. The net loss on property, plant and equipment related to the closures totaled \$259,000 and was included in the 1999 nonrecurring charge.

(a) Other annual compensation includes Holdings' Class C Stock, supplemental retirement plan benefits, automobile allowances, insurance premiums and medical cost reimbursement. In fiscal 2000, other annual compensation for Mr. Rowan includes relocation assistance. In fiscal 1999 and 1998, other annual compensation for Mr. Casey included relocation assistance. In fiscal 1998, other annual compensation for Messrs. Pacifico and Whetzel included relocation assistance.

EMPLOYMENT ARRANGEMENTS

Frederick J. Rowan, II, President and Chief Executive Officer, and the Company entered into a three-year employment agreement as of October 30, 1996, which automatically extends annually for successive one-year terms, subject to termination upon notice. Pursuant to such agreement, Mr. Rowan is entitled to receive (i) a base salary, currently \$600,000 per year (subject to annual cost of living adjustments and any increases approved by the Board of Directors), (ii) annual cash bonuses based upon a bonus plan to be determined each year by the Board of Directors in conjunction with the Company's achievement of targeted performance levels as defined in the plan and (iii) certain specified fringe benefits, including a retirement trust. If Mr. Rowan's employment with the Company is terminated without cause (as defined), he will continue to receive his then current salary for the remainder of the employment term and the Company will maintain certain fringe benefits on his behalf until either the expiration of the remainder of the employment term or his 65th birthday. Mr. Rowan has agreed not to compete

with the Company for the two-year period following the end of his employment with the Company, unless he is terminated without cause, in which case the duration of such period is one year.

Joseph Pacifico, Charles E. Whetzel, Jr. and David A. Brown entered into two-year employment agreements with the Company as of October 30, 1996. Michael D. Casey entered into a two-year employment agreement effective October 28, 1998. Pursuant to such agreements, Messrs. Pacifico, Whetzel, Brown and Casey (each an "Executive") are entitled to receive (i) a base salary, currently \$390,000, \$262,500, \$262,500 and \$210,000, respectively (subject to annual cost of living adjustments and any increases approved by the Board of Directors), (ii) annual cash bonuses based upon a bonus plan to be determined each year by the Board of Directors in conjunction with the Company's achievement of targeted performance levels as defined in the plan and (iii) certain specified fringe benefits, including a retirement trust. The employment agreements automatically extend annually for successive one-year terms, subject to termination upon notice. If an Executive's employment with the Company is terminated without cause (as defined), he will continue to receive his then current salary for the remainder of the employment term and the Company will maintain certain fringe benefits on his behalf until either the expiration of the remainder of the employment term or his 65th birthday. Each Executive has agreed not to compete with the Company for a one-year period following the end of his employment with the Company, unless he is terminated without cause, in which case the duration of such period is six months.

MANAGEMENT STOCK INCENTIVE PLAN

At the Acquisition, Holdings adopted a Management Stock Incentive Plan (the "Plan"), in order to provide incentives to employees and directors of Holdings and the Company by granting them awards tied to the Class C Stock of Holdings. The Plan is administered by a committee of the Board of Directors of Holdings (the "Compensation Committee"), which has broad authority to administer and interpret the Plan. Awards to employees are not restricted to any specified form or structure and may include, without limitation, restricted stock, stock options, deferred stock or stock appreciation rights (collectively, "Awards"). Options granted under the Plan may be options intended to qualify as incentive stock options under Section 422 of the Code or options not intended to so qualify. An Award granted under the Plan to an employee may include a provision terminating the Award upon termination of employment under certain circumstances or accelerating the receipt of benefits upon the occurrence of specified events, including, at the discretion of the Compensation Committee, any change of control of the Company.

In connection with the Acquisition, Holdings granted options to purchase up to 72,199 shares of its Class C Stock to certain members of the Company's senior management, other officers and employees of the Company. As of December 30, 2000, options to purchase up to 74,982 shares of Class C stock were outstanding. The exercise price of each such option is \$60.00 per share, which was the same price per share paid by existing holders of Class C Stock of Holdings to acquire such Class C Stock. The exercise price of each option granted in the future will be equal to the fair market value of Holdings' Class C Stock at the time of the grant. Each option will be subject to certain vesting provisions. To the extent not earlier vested or terminated, all options will vest on the tenth anniversary of the date of grant and will expire 30 days thereafter if not exercised.

DIRECTOR COMPENSATION

The Company pays no additional remuneration to its employees or to executives of Investcorp for serving as directors. There are no family relationships among any of the directors or executive officers.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

Class D Stock, par value \$.01 share, is the only class of Holdings' stock that currently possess voting rights. At December 30, 2000 there were 5,000 shares of Holdings' Class D Stock issued and outstanding. As of December 30, 2000, members of the Company's management owned 119,863 shares of Class C Stock of Holdings. This stock has no voting rights except in certain limited circumstances. The following table sets forth the beneficial ownership of each class of issued and outstanding securities of Holdings, as of February 28, 2001, by each Director of the Company, each of the Executive Officers of the Company, the Directors and Executive Officers of the Company as a group and each person who beneficially owns more than 5% of the outstanding shares of any class of voting securities of Holdings.

CLASS D VOTING STOCK:

NAME -----	NUMBER OF SHARES (a) -----	PERCENT OF CLASS (a) -----
INVESTCORP S.A.(b)(c).....	5,000	100.0%

(a) As used in this table, beneficial ownership means the sole or shared power to vote, or to direct the voting of, or the sole or shared power to dispose of, or direct the disposition of, a security.

(b) INVESTCORP S.A. ("Investcorp") does not directly own any stock in Holdings. The number of shares shown as owned by Investcorp includes all of the shares owned by INVESTCORP Investment Equity Limited (see (c) below). Investcorp owns no stock in Ballet Limited, Denary Limited, Gleam Limited, Highlands Limited, Noble Limited, Outrigger Limited, Quill Limited, Radial Limited, Shoreline Limited, Zinnia Limited, or in the beneficial owners of these entities (see (f) below). Investcorp may be deemed to share beneficial ownership of the shares of voting stock held by these entities because the entities have entered into revocable management services or similar agreements with an affiliate of Investcorp, pursuant to which each of such entities has granted such affiliate the authority to direct the voting and disposition of the Holdings voting stock owned by such entity for so long as such agreement is in effect. Investcorp is a Luxembourg corporation with its address at 37 rue Notre-Dame, Luxembourg.

(c) INVESTCORP Investment Equity Limited is a Cayman Islands corporation, and a wholly-owned subsidiary of Investcorp, with its address at P.O. Box 1111, West Wind Building, George Town, Grand Cayman, Cayman Islands.

(d) SIPCO Limited may be deemed to control Investcorp through its ownership of a majority of a company's stock that indirectly owns a majority of Investcorp's shares. SIPCO Limited's address is P.O. Box 1111, West Wind Building, George Town, Grand Cayman, Cayman Islands.

(e) CIP Limited ("CIP") owns no stock in Holdings. CIP indirectly owns less than 0.1% of the stock in each of Ballet Limited, Denary Limited, Gleam Limited, Highlands Limited, Noble Limited, Outrigger Limited, Quill Limited, Radial Limited, Shoreline Limited and Zinnia Limited (see (f) below). CIP may be deemed to share beneficial ownership of the shares of voting stock of Holdings held by such entities because CIP acts as a Director of such entities and the ultimate beneficial shareholders of each of those entities have granted to CIP revocable proxies in companies that own those entities' stock. None of the ultimate beneficial owners of such entities beneficially owns individually more than 5% of Holdings' voting stock.

(f) Each of CIP Limited, Ballet Limited, Denary Limited, Gleam Limited, Highlands Limited, Noble Limited, Outrigger Limited, Quill Limited, Radial Limited, Shoreline Limited and Zinnia Limited is a Cayman Islands corporation with its address at P.O. Box 2197, West Wind Building, George Town, Grand Cayman, Cayman Islands.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In connection with the closing of the Acquisition, the Company entered into an agreement for management advisory and consulting services with Investcorp International, Inc. ("International") pursuant to which the Company agreed to pay International \$1.35 million per annum for a five-year term. At the closing of the Acquisition, the Company paid International \$4.05 million for the first three years of the term of the Management Agreement in accordance with its terms. Upon the Acquisition, the Company was required to pay an aggregate amount of approximately \$11.3 million to certain members of management, including payments under the Management Equity Participation Plan and the Long-Term Incentive Plan.

In January 2000, a loan to an officer in the amount of \$4.3 million was issued, the proceeds of which were used by the officer to repay a previous loan from the Company in the amount of \$1.5 million. The \$4.3 million loan is payable in annual installments of \$600,000 commencing on March 31, 2002, and thereafter on each anniversary thereof until such principal amount and all accrued and unpaid interest thereon has been repaid. The loan has recourse and is collateralized by the officer's stock in Holdings and bears interest at the average rate paid by the Company under the revolving portion of its Senior Credit Facility. The loan is prepayable with proceeds of any disposition of the officer's stock in Holdings.
